

*\* What describes Images By Sabrina*

*Photography's photographic style?-*

It's not just traditional photography, ordinary snap shots, or plain posed photographs. We put style into creating our poses. We shoot weddings in a memorable story telling fashion with a variety of styles such as traditional, candid, detail, eloquent, artistic, & fun, silly shots if requested. By meeting with each couple and finding out what they desire, we bring to life each persons own unique personality into capturing the true beauty that lies within their soul. Romantic shots are our specialty. The bride and groom usually set aside additional time for those romantic shots that sweep us off our feet. Couples spend months planning their weddings. Hiring a photographer is one of the most important decisions that you will make for your wedding. It is not an area that you want to cut costs on or let just anyone take pictures for you. We put passion into our work in capturing the details of your wedding with immense variety and detail. Cutting the cake, tossing the bouquet, and your honeymoon.....only lasts so long. Let us create a keepsake for you that will be treasured for a lifetime by hiring us to capture the details of one of the most memorable days of your life!
